

## AC1010 • 10 Amp Current Transformer

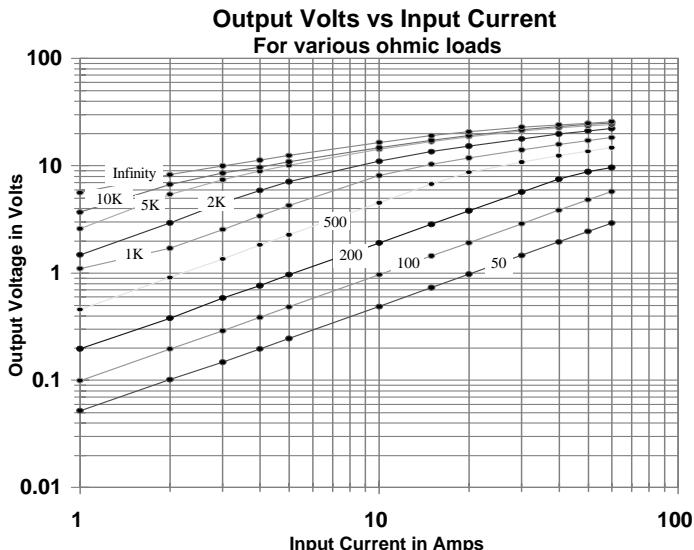

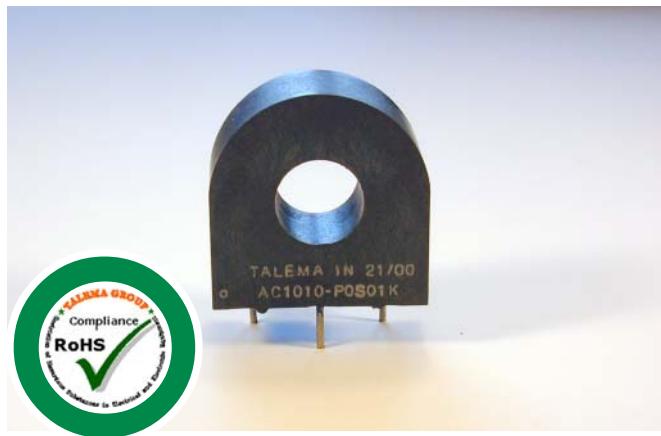

### Low Cost 50/60Hz Current Transformers

#### Applications

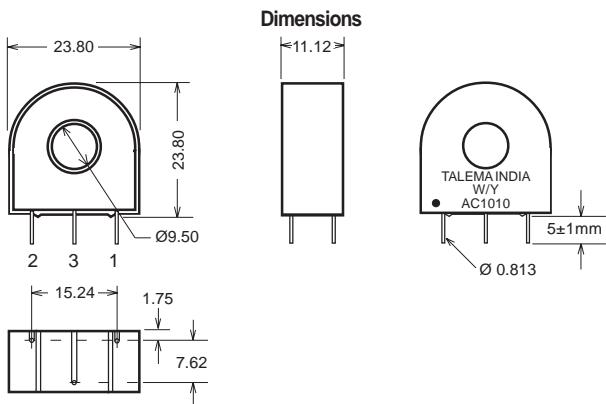

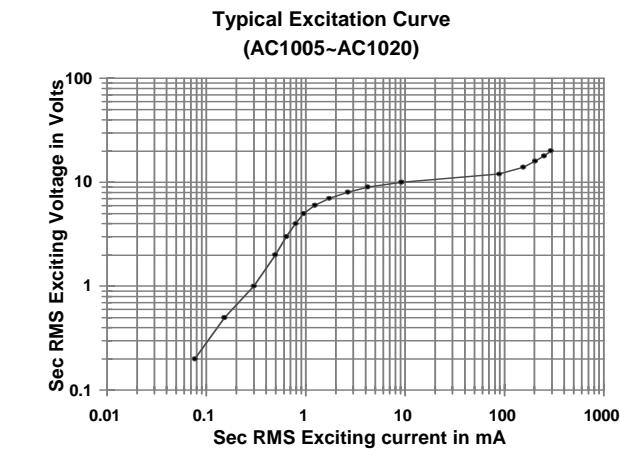

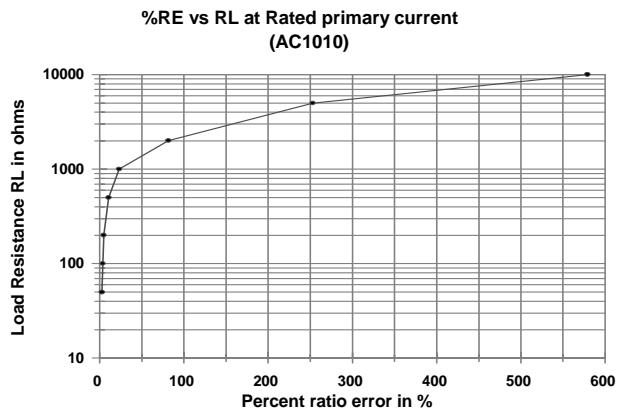

- Sensing Overload Current
- Ground fault detection
- Metering
- Analog to Digital Circuits
- Competitive pricing due to high volume production
- Manufactured in an ISO-9001:2000, TS-16949:2002 and ISO-14001:2004 certified Talema facility
- Fully RoHS compliant

#### Electrical Specifications @ 20°C Ambient

| Electrical Specifications                  |   |
|--|---|
| Primary Current                            | 10A nom., 60 A max.                                 |
| Turns Ratio                                | 1000:1 nominal                                      |
| Volt per Amp Ratio at 10A for 100 ohm load | 0.100 V/A   |
| Volt per Amp Ratio at 1A for 100 ohm load  | 0.097 V/A   |
| DC Resistance at 20°C                      | 41.8 ohms   |
| Dielectric Withstanding Voltage (Hi-pot)   | 4KVrms  |
| Mechanical Specifications                  |   |
| Case                                       | Polycarbonate                                       |
| Encapsulant                                | Epoxy   |
| Flammability                               | Conforms to UL94-VO                                 |
| Terminals                                  | Pins Ø 0.80mm                                       |
| Marking                                    | TALEMA<br>Date Code (W/Y)<br>1010, Dot at start pin |
| Approximate Weight                         | 16.3 grams  |
| Tolerance                                  | ±0.2mm  |

| Environmental Specifications |                  |
|------------------------------|------------------|
| Storage Temperature          | -55° to +130°C   |
| Insulation Resistance        | 100 megohms min. |

#### Notes:

- Unless requested, the terminating resistor and the one-turn primary are not supplied
- Pin 3: Normally for mechanical support only but will be used on center tapped designs
