

RCY CONNECTOR

Disconnectable Crimp style Wire-to-wire connectors

The RCY connector is a compact, 2.5 mm pitch wire-to-wire connector for use with a variety of circuits, from signal circuits to power supply circuits, in electrical equipment which is becoming more and more compact. The employment of a free spring contact method ensures stable contact performance, and superb working efficiency of insertion and removal.

Features

• Use of a free spring contact for superb creep characteristics

The contact section features a free spring contact construction, which effectively minimizes stress (creep) caused by repeated insertion and removal at high temperatures. Connector insertion and removal is also smooth, ensuring stable connection performance.

• Compact design

The RCY connector is designed to be compact. When mated, its overall length is just 23.3 mm and its thickness is 4.0 mm.

• Housing lock

Because a lock is provided inside the housing, external force is not applied to the lock.

Specifications

- Current rating: 3 A AC, DC max.
- Voltage rating: 250 V AC, DC max.
- Temperature range: -25°C to +85°C
(including temperature rise in applying electrical current)
- Contact resistance: Initial value/ 10 mΩ max.
After environmental tests/ 20 mΩ max.
- Insulation resistance: 500 MΩ min
- Withstanding voltage: 1,500 VAC/minute
- Applicable wire: AWG #28 to #22
0.08 to 0.33 mm²

* In using the products, refer to "Handling Precaution for Terminal and Connector" described on our website (Technical documents of Product information page).

* Contact JST for details.

* RoHS2 compliance.

Note: The current rating varies depending on the wire size used in each connector.

The table below lists the current rating as a function of the wire size.

Circuits	Wire size (AWG)			
	#22	#24	#26	#28
2	3	2	1	0.5

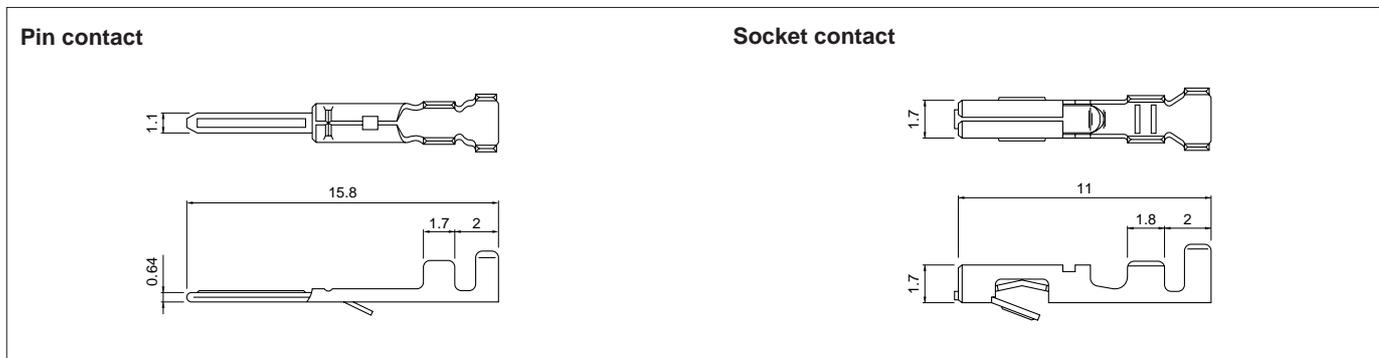

Current unit: A
